Customer Upgrade Program

UP TO **40%** OFF MSRP

Now with Wi-Fi 6/6E

netAlly

EtherScope® nXG Portable Network Expert

Overview

In recognition of your investment in EtherScope nXG, NetAlly is pleased to offer an upgrade path to add the new Wi-Fi6/6E EtherScope nXG (EXG-300) to your network management toolset. This is not a trade-in program – you get to keep your existing EtherScope nXG, allowing you to equip more team members AND have two tools that work together for wireline performance testing and LANBERT™ cable qualification!

Program Logistics

EtherScope nXG owners with active AllyCare support get a **40% discount** off our manufacturer's suggested retail price (20% off for non-AllyCare owners) through our authorized resellers. If you do not have AllyCare, you can still get the better discount by adding AllyCare to your EXG-200 on the same order with the upgrade model.

Here is how to take advantage of this offer:

- **Your current EXG-200 must be registered on the _Customer Self Service_**
- **Fill out the upgrade request form at _www.netally.com/nxg-upgrade_**
  If you do not have AllyCare Premium Support check the box indicating that you will add support for your EXG-200 at the time of ordering (order either EXG-200-1YS or EXG-200-3YS)
- **NetAlly will verify your request and provide an authorization code via email.**
- **Provide this code to your Authorized NetAlly Reseller when placing your order** – contact them for more information about this program.
